Gutter Cleaning ^{*\$}99
From

Dengue and
Ross River?
Homeless!

*Standard Size Single Storey House

IMPORTANT MESSAGE !

Your gutters constantly accumulate debris from leaves, birds and rodents. Having them cleaned once a year and again after high winds removes the debris which causes gutters to become blocked, overflow and rust. Water and rubbish lying around in your gutters will enable mosquitos to breed in the stagnant water.

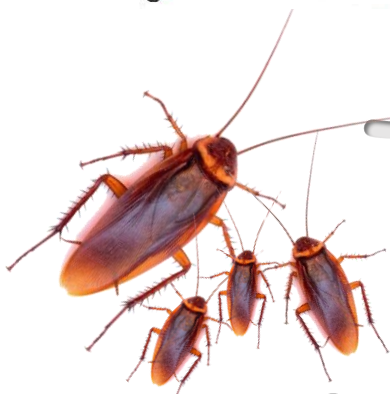

When was the last time you had your gutters cleaned?
